**Livestreaming:** We are pleased to announce that the livestreaming of the Sunday 9.15 service will recommence as from **Sunday 30<sup>th</sup> July**. From that date, 'considerate filming' of this service will take place. Care will be taken to ensure that only those in the Chancel area, (the area between the Altar and pulpit) who have given their permission to be filmed, will appear in shot. Filming will cease whilst people go forward into the Chancel area to receive Holy Communion. During other parts of the service, the backs of the heads of those sitting towards the front of the Nave may appear in shot. The film free zone, which will not be filmed, is the back 5 rows of the church. The service will appear on YouTube for a month after which time it will be removed.

**Eco Church - Earth Overshoot Day:** We have just passed [Earth Overshoot Day](#), which this year was on 2nd August. This is date when humanity has used up more resources than the planet's ecosystems can regenerate in a year. For the rest of 2023, we are effectively borrowing resources from future years. We've already passed the UK day, which was 19<sup>th</sup> May. To move the date, we need to tread more lightly and live within our ecological means, doing all the things encouraged by Eco Church. For example: **Diet**- Eat a planet friendly diet, buying from local, sustainable producers. **Voice**- Use your voice to demand change: vote, sign petitions, protest. **Energy**- Use energy sustainably and try to reduce the amount that is wasted.
